## INSTRUCTIONS

1. Wipe the bisque with a damp sponge to remove ceramic dust.
2. Paint the leaf and stem with Yellow # 19 using a small round brush. Apply 3 coats.
3. Paint the top of the apple box with Red # 90. Use a small round brush to carefully paint areas where the apple meets the leaf and the stem. Then use a Fan brush to cover sides of the box faster.

5. Sponge the mid section of the bottom half of the apple with Purple # 41.

7. Apply second and third coats to Red and Blue areas of the apple box.
8. Close the box and use a sponge to add some texture with Purple all around the mid section of the apple box. Press down on the leaf part of the box with one hand while sponging with the other to make sure the apple box stays in place during this process.
