

# THE DARK SIDE DARTH VADER™ MUG

## MATERIALS NEEDED:

SWX112 – Darth Vader Helmet Mug

### Duncan® Concepts®:

- CN074 – Really Red
- CN203 – Dark Grey
- CN201 – Light Grey
- CN253 – Black

### Duncan® Discovery Brushes:

- BR529 – No. 4 Round
- BR530 – No. 8 Round

### Other Supplies:

- Potter's Sponge

© & ™ Lucasfilm

## PROJECT INSTRUCTIONS:

*Before you begin, wipe a damp sponge over entire bisque to remove dust and contaminants.*

1. Paint 1 thick coat of Black all over the outside of the mug until no white is showing.
2. When the color has lost its shine, take a slightly damp sponge and gently wipe the color off the pottery. You want to wipe lightly, removing the color from just the raised parts of the texture. This will leave the color in just the cracks, giving it an antiqued look. For best results, continually rinse your sponge in your water bowl while you wipe, as needed, and squeeze out the water well so it doesn't drip onto your pottery.
3. Paint 2 watery coats of Dark Grey over the entire outside mug, except for the handle.
4. Paint 2 coats of Light Grey on the tips of the mouth on the front of the mug.
5. Paint 2 coats of Really Red on the inside of the mug.
6. Paint 3 coats of Black on the handle. Let each coat dry before moving on to the next.
7. Paint 2 coats of Black on the top rim of the mug.
8. Starting with a wet brush, mix it into some Black, and splatter all over the bank.
9. Clear glaze then stilt and fire to cone 06.
